# Adithya Jayachandran (AJ)

IoT Enthusiast, Data Scientist, Software Engineer

adithya.j@berkeley.edu • 510-461-6813 • Berkeley, CA • github.com/adithyaj

#### **Education**

UC Berkeley: Electrical Engineering & Computer Science (B.S.)

Berkeley, CA

**Relevant Coursework:** Structure & Interpretation of Computer Programs, Microelectronic Circuits, Discrete Math and Probability Theory,

GPA: 4.0 (2017-2019)

Device Design and Systems

**Ohlone College:** Computer Science & Engineering (Transfer)

Fremont, CA

Relevant Coursework: Data Structures & Algorithms, Circuit Analysis,

GPA: 3.83

Matlab, Linear Algebra, Differential Equations,

(2015-2017)

Quantum Physics, Electricity

On-Campus Leadership: President of Dot-Slash Computer Science, President of Ohlone Math Club,

Senator at Associated Students of Ohlone College, Treasurer at  $A^2\pi$  Outreach

### **Skills**

Proficient: Python, C++, mySQL, Git

Advanced: Java, Matlab, HTML/CSS, JSON

## **Experience**

NASA Ames Research Center - NCAS Systems Engineer

Dec 2016 - June 2017

- Prototyped a Mars Rover for navigation, sample collection, and mineral detection.
- Researched a rover system using modular components & OTG hot-swappable sensors.

Abaxis Inc. - Engineering Intern

May 2016 - Feb 2017

- Created a trend detecting manufacturing dashboard saving the company over \$20,000 annually.
- Lead an IoT data analysis project to harvest data from older manufacturing hardware over the network.
- Designed and validated over 100 front-end GUIs to ensure compliance with Federal regulations.

# **Notable Projects**

Raspberry Pi Webserver:

• Utilized node.js, Ghost, & an overclocked Raspberry Pi 2 to host my blog (www.adij.me)

Votified

A CalHacks 3.0 Project to help citizens learn how local representatives vote. [Python, CSS, JSON]

Android Auto Everywhere [WIP]

• Seemlessly integrated Android Auto/CarPlay on legacy cars (without any smart capabilities) [Python, ADB tools, I2C Communication]

## **Awards**

NASA Aerospace Scholars - MVP 2017

• Given an official NASA medallion (*minted from Curiosity's metal*) in honor of my distinguished efforts in programming, rapid prototyping, and effective leading.

American Math Association for Two Year Colleges: Student Math League - 8th College Nationwide; 3rd Place at Ohlone

• Recognized for Achievement for the Nationwide AMATYC Test.
